

# What is Medication Adherence?

Medication adherence is defined as a patient's conformance with their provider's recommendation with respect to timing, dosage, and frequency of medication-taking during the prescribed length of time.

In other words, are your patients taking the medications you prescribed on time, in the correct dose and for the prescribed amount of time?

## How we can help

At Green Life Pharmacy, we are always focused on helping your patients be as healthy as possible. That's why we offer our Medication Synchronization and Compliance Packaging programs.

## Medication Synchronization

Medication synchronization is an automated solution that coordinates all of your patients' prescriptions to be refilled on the same day each month.

### Benefits:

- Each month, on the day of your patients' choosing, all of their prescriptions will be refilled and ready for pick up or delivery.
- A few days prior to their prescriptions getting refilled, they will receive a call from our pharmacy to confirm which prescriptions are needed.
- We ensure they are taking the right medications each month by checking with them and you, to eliminate any confusion with their medication regimen.

## Additional Services

*From the moment your patients visit my store, they'll feel the difference.*

Green Life Pharmacy offers a variety of services, all designed to help your patients take a more active part in your own health care. Additionally, we are proud to offer:

- FREE local delivery
- Compression hosiery
- Immunization services
- Medication therapy management
- Special ordering services
- Top quality generic and brand medications
- Diabetes products
- And more!

## Compliance Packaging

Our compliance packaging is designed to help your patients take the right medications at the right time - giving you one less thing to worry about. When they sign up for our program our pharmacist will personally evaluate all of their prescriptions and consult with you and your patient to develop a personalized dosage pack.

### Benefits:

- Easy-to-use packs
- Convenient local delivery to a home or workplace
- Most major insurance programs accepted
